Robert Darlington

Cartography | GIS | Photography

Hello, my name is Robert Darlington and I 'd like to suggest to visit my website. It gives a very clear picture of everything I care about and work on. You'll find everything there, from my team capstone, in which we traveled around for field samples and tested water quality to better inform the community of excess nutrient loading, to my maps and photos.

Education

University of Wisconsin – Madison   2015-19
College of L&S - Dept. of Geography

Cartography/GIS and Geography
Dean's List & GPA 3.734

Experience

Cartographic Teaching Aid   2018-Present
Nuclear Engineering Dept. - UW Madison
I currently aid in teaching and assisting with the cartographic aspect of a Nuclear Engineering course (NE 571). In relation, I am also working on an atlas of nuclear reactors for an overall view of the nuclear story.

Cartographer   2016-Present
Cartography Lab - UW Madison
I work on a rolling basis depending on work available. Recent projects include helping in a world political map and a tour book.

Data Manager   2016
State's Cartographer's Office - UW Madison
I worked on filing the meta-data in regards to Wisconsin counties to help with the large volume of processing needed each year.

Co-president   2016-17
Geography Club - UW Madison
I was the working co-president for a year term, advancing my leadership as well as team skills in an organization setting.

Campground Work   2015-16
Jellystone's Campground - Warrens, WI
I fulfilled this position over past summers as I bettered my skills such as customer service and being apart of a working team.
